

# WEIGHING ON-OFF HIGHWAY DUMP TRUCK

## OVERLOAD PREVENTION AND PRODUCTIVITY MONITORING

Versatile and with a complete automatically it guarantees the correct use of the dumper according to its construction standards. Preventing overload means reducing the maintenance and tire wear costs, important aspects in managing a dumper park.

The instrument can also send the situation of the load remotely so you can determine the sorting of the fleet within a mine.

An ideal tool to save the dump truck and know the tonnes transported.

## APPLICATION

# WEIGHING ON-OFF HIGHWAY DUMP TRUCK
